VEHICLE CLASS APPLICABLE TO CONVENTIONAL TOLL PLAZAS

CLASS 1	All light vehicles	
HEAVY VEHICLES		
CLASS 2	2 AXLES	
CLASS 3	3 and 4 AXLES	
CLASS 4	5 or more AXLES	

Vehicle classes at conventional toll plazas are determined by the number of axles. Please refer to *Government Gazette No. 48018 of 2023* on adjusted toll tariffs as published on 10 February 2023.

DISCOUNTS: Discounts offered at specific toll plazas for frequent users, as well as qualifying local users still apply. Application for discounts can be made at the toll plaza offices.

REVENUE STREAM

Toll fees allow for a continuous revenue stream provided by those that make use of a tolled road.

Toll fees mean there will always be funds to optimally maintain roads, which makes roads safer and saves money in the long run.

MAINTENANCE

Roads need to be kept in optimal condition at all times.

They deteriorate over time due to wear and tear from traffic loading (especially trucks) and climate (rainfall and UV radiation).

The maintenance of roads is not a once-off occurrence – it is a continuous process to ensure optimal performance.

COLLECTION OF TOLL FEES

allows us to (among others):

- Clean drains to ensure effective drainage of rainwater
- Cut grass to improve visibility and reduce the risk of veldfires
- Seal surface cracks and fix potholes
- Maintain road signs and markings
- Respond to crashes and clean up debris
- Resurface the road on a periodic basis
- Add additional lanes when required.
